Inspector Report 2021

This report is an assessment of the administration of HHUS, based on the HHUS statutes and regulations. The annual meeting and the HHUS board appointed me in the inspector role in November 2020 when the postponed annual meeting was held. This report covers the calendar year 2021.

The board meets regularly, the meetings are well prepared, and all members send out their respective reports in advance. Minutes are published on the HHUS website. All strategic and operational documents related are accessible in English.

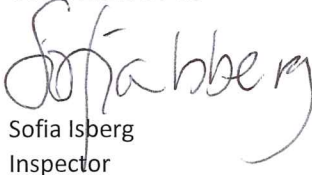

The board meetings were held digitally in the spring of 2021, and physically during autumn 2021. The board of 2021 continued to update documents as a continuation of the work done by the board of 2020. I have in my role, and in accordance with the statutes §5.2, had discussions primarily with the presidium since I have not been able to attend board meetings.

I have also had meetings with the presidium to discuss appointments and recruitment procedures, incidents during social events, and concerning an investigation whether HHUS should become an independent union or not. The presidium has always acted very professional, being well prepared and open for other perspectives.

The past year, as well as the spring semester of 2022, have been challenging with activities on campus, hybrid and in digital format and planning has not been easy with sudden changes in restrictions. This has, of course, also affected the work of the board of 2022. Again, I want to emphasize the professional attitudes of the USBE board and its members.

My advice is to grant discharge to the HHUS board.
